

The new Becka Brook footbridge was featured on BBC Spotlight on Wednesday 26/11/14. George Coles was interviewed for on Spotlight in his role as Media Secretary for the Moorland Group. The bridge was part funded by the Moorland Group Environmental Fund. Other major funding was provided by HF Holidays. George was the first Rambler to cross the new Becka Brook Bridge which was finished on Monday. Dartmoor National Park Authority (DNPA) who obtained planning permission and set up the project including negotiation with the landowners stated that it is the first new clapper bridge on Dartmoor since the war. It's a bit narrow as requested by Natural England

The clapper bridge looks good in its setting in a narrow Dartmoor valley and is much more appropriate for its setting than a modern timber footbridge. Well done DNPA.

Moorland Group is one of 12 Devon Area Ramblers Groups in Devon.
